JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CUBA.

HABANA—Inspection of Vessels.

Passed Assistant Surgeon de Valin reports, July 26:

Week ended July 23. Bills of health issued, 21. Vessels inspected and passed, 13. Members of crews of outgoing vessels inspected, 731. Passengers of outgoing vessels inspected, 496.

No quarantinable diseases were reported in the island during the week.

ECUADOR.

GUAYAQUIL—Yellow Fever—Plague.

Passed Assistant Surgeon Parker reports, July 8:

Yellow fever.—There were reported during June, 1910, but 15 new cases of yellow fever, with 10 deaths and 12 recoveries. This is the usual dry-season number of cases.

Plague.—There were but 6 cases of plague reported during June, all from two localities. Prompt measures were taken by the health authorities.

Inspection of vessels.—Bills of health were issued to 2 vessels, both of which were fumigated with sulphur. The members of crews inspected totaled 118, of cabin passengers 45 and of steerage passengers 21.

GUATEMALA.
